羊 YANG SING 城

We have worked alongside our friends and suppliers to curate a selection of wines from obscure small producers all the way in Japan to big name vineyards closer to home, that make perfect pairings with our cuisine. We continue to see the demand grow for more unique and interesting drinks and producers.

In this edition of the wine list we have explored beyond just family owned, organic or biodynamic wines – we celebrate our female wine makers who have broken through glass ceilings and continue to take more risks and produce ever more exciting wines. ♀

CHAMPAGNE 香檳

Gosset is the oldest house in Champagne, founded in 1584 by Pierre Gosset. It was in the 18th Century when they made their first bottle of sparkling wine using the antique flask shaped bottles that are still used today. The grapes primarily come from premier and grand cru vineyards surrounding Epernay which, once unified, receive extensive ageing in the cellar ensuring complexity, intensity and expressiveness.
